

Shell Global Helpline - Telephone Numbers

The Shell Global Helpline allows reports to be submitted by either a web-based form at <https://www.compliance-helpline.com/Shell.jsp> or by utilising one of a number of telephone lines that will connect you to a Helpline interviewer. This document lists the currently-established telephone lines, by country in which Shell operates.

Note 1: For legal reasons and to allow staff consultation processes to complete, the Helpline is not currently available for use from the following countries or by anyone in relation to any person residing in the following countries:

Austria	France	Iran
---------	--------	------

Note 2: In some countries, there may be problems connecting to a local toll-free number from a mobile telephone or public callbox. If you experience such a problem, the US 'Call Collect' number of +1 704 973 0344 may be dialled. You will not be charged for the call.

Note 3: Country-specific communication material giving more information on the Helpline and how to access it was made available as part of the roll-out of the Global Helpline in each country

Note 4: Please notify the Helpline Administrator at SI-Global-Helpline-Administration@shell.com if there are any problems gaining access to the Helpline

Helpline telephone numbers per country

Country	Line Type ¹	Dialling instructions

Vietnam	AT&T Direct Access	1-201-02888 then 800-961-4117

¹Meaning of Line Types

AT&T Direct Access

An AT&T access code number that is unique for the calling country is first dialled. A recorded operator prompt then asks you to key in the second number as listed above. This second number is the US toll-free number that connects you to the Helpline. AT&T Direct Access is not available in all countries. Further information on availability and the access codes themselves for each country can be obtained on the AT&T website at <http://www.usa.att.com/traveler/index.jsp>

Local Toll-free

For a number of Shell countries, a special toll-free telephone number has been set up for the Helpline. It is only available to be dialled from within that country and once dialled, will connect you straight

through to the Helpline.

US Call Collect

You will first hear a recorded message accepting the call charges and will then be connected through to the Helpline. This number can in fact be called from any country and may be used in the event that a problem is found using either AT&T Direct Access or a Local Toll-free number.
